Does your pet get exercised? If yes how often and for how long?

What other pets are in your household?

Are there children in your household? If yes what ages?

Have there been any major changes in your household, which may have affected the pet e.g. new animals, visitor, people leaving?

What outcome are you hoping for with this problem? For example –

- Being able to walk the dog without it barking at other dogs.
- I would like my animal to be calm during storms.
- I would like my cat to use the litter tray rather than spraying.
- I would like my pet to be less destructive at home
